

PROFESSIONAL SOUND SPEAKER SYSTEM

model SM-25M

General Description

The TOA SM-25M is a self-powered personal monitor system designed around our popular SM-25A powered monitor system. The SM-25M has a built-in 25 watt power amp, a 5-inch woofer and a 2-inch tweeter. An automatic compression circuit is provided to ensure maximum headroom and speaker component protection. The system features a mic level XLR input on the front panel, as well as a rotary volume control, a tone control, and headphone monitoring jack. Add to that a back panel with both a line level $\frac{1}{4}$ " input jack and a bridging jack for chaining additional speakers, and the SM-25M becomes a portable PA/monitor system—just plug in a microphone and go. A unique bracket allows the system to be mounted to mic stands, and even to walls in permanent installations. The cast aluminum enclosure is rugged enough to withstand even the roughest handling. The SM-25M combines high performance, durability, and innovative design in portable package with a wide range of applications.

Specifications

Enclosure	: Sealed type	Line input impedance	: 8k ohms, set at -20 dB, 40k ohms at $+4$ dB, Transformer isolated balance
Speakers	: 2 way speaker of 12cm (5-inch) and 5cm (2-inch) diameter	Tone control (high cut)	: -15 dB at 10kHz
Sound pressure level	: 88dB (1W/1M)	Line input terminal	: Locked $\frac{1}{4}$ " jack
Frequency response	: 90Hz~20kHz	Bridge terminal	: Locked $\frac{1}{4}$ " jack
Amplifier		Finish	
Power requirements	: AC Mains	Front panel	: Metal punched net
Power consumption	: 30W (MAX. 65W)	Body	: Cast aluminum (Black)
Rated output power	: 25W	Weight	: Approx. 6.3kg (13.9 pounds)
Mic input sensitivity	: -55 dB (1.38mV)	Dimensions	: 325(W) x 170(H) x 140(D) mm 12.8(W) x 6.7(H) x 5.5(D) inches
Mic input impedance	: Open (For use with nominal 50-ohm to 250-ohm) electronically balanced		
Mic input terminal	: XLR Type, NC3F		
Line input sensitivity	: -20 dB (77.5mV) or $+4$ dB (1.23V) switchable		

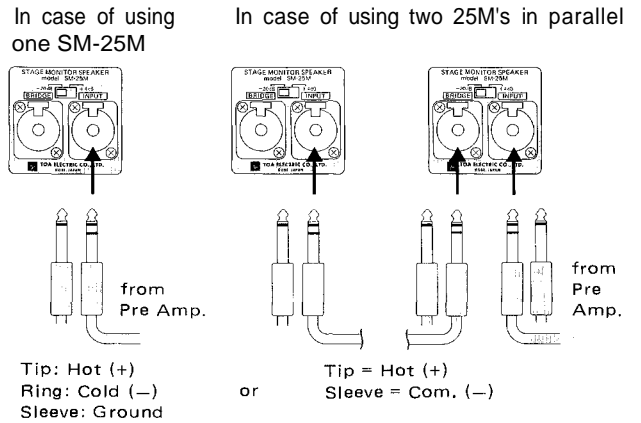

● How To Connect & Installation

MIC input connection [Front Panel]

LINE input connection [Rear Panel]

*1 When carrying out the installation of Fig. 4, first take off the bracket No.2 and install the bracket No.1 on the wall with the wooden screws.

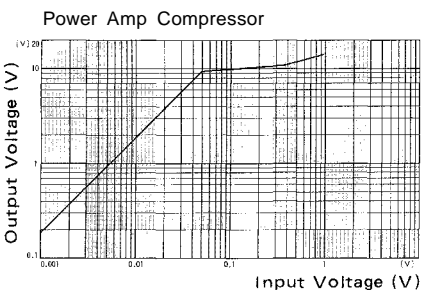

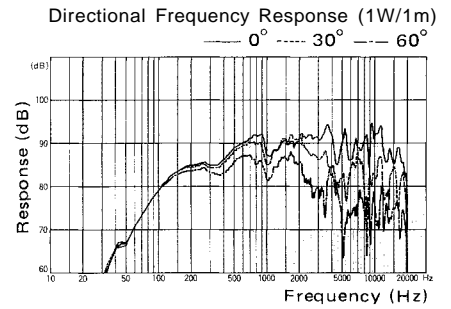

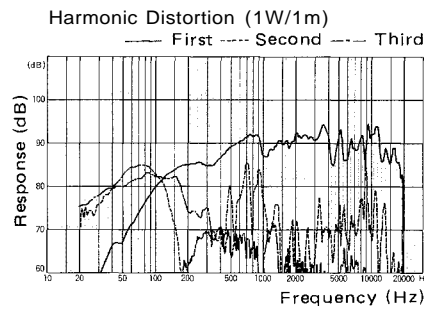

*2 Bracket No.2 will change in position by 90 degrees when these mounting holes are used.

● Characteristic Diagrams

Input signals are fed through a line input terminal.

(Tone control set at "10")
